Kenya Famine Update

10TH AUGUST 2011

Since last we wrote a couple of weeks ago the relief efforts through BMA/NLHT is getting into full swing. Many extra children are coming to our 13 existing feeding programmes scattered throughout the drought ridden region of Tana River and Lamu counties. Now close on 1,000 children are being fed.

A further 600 children have been added to our 13 existing feeding programmes through adding feeding to our learning centres at Gubani, Hewani, Itsowe, Mapunga, Vumbwe, Tawakai, Cheridende and Mikameni. At Madogo-Garissa they are daily seeking to cope with the flood of Somali refugees that are passing by looking for food. This has greatly increased the challenge to feed the hungry. But through a donation from Joyce Meyer Ministries the number of children being fed is being increased from 60 to 150 and will be increased again as the programme develops.

Also a bore hole well is going to be drilled on a newly acquired plot that has been donated to NLHT from a Moslem family. An anonymous donor from the U.S.A has donated for the drilling of borehole wells on the sites of six learning centres. This will help to alleviate the great need for water and will even allow local farmers to plant crops while they wait for the rain. One can't imagine what it is to live in these areas that have not had rain for 60 years and to receive this great migration of human life moving into Kenya – a country that is having the great challenge of feeding its own in this

region. We remember a few years ago visiting El-Wak in N.E. Province and seeing women and children walk many miles for water. An old man walked two days from Somalia. When asked, "How can we help you?" He responded, "I would like a drink of water."

"Tough times never last, but tough people do." - Robert Schuller
